Organized 1860. * * * Chartered 1873.

Opens Its Forty-Fourth Scholastic Year September 7, 1904.

GENERAL REMARKS.

HIS Institution is under the direction of the Franciscan Fathers of the Province of the Sacred Heart of Jesus. It is intended for the education and instruction of Catholic boys and young men exclusively.

Location. The location of the College is excellent as regards both health and the necessary retirement. The grounds are large enough to allow the students to play all kinds of games, base ball included. They are partially covered with large shade trees, under which there is a nice, shady walk. Hand ball and bowling alley under roof afford occasion for plentiful and healthy exercise.

Equipment. The buildings are spacious and modern, well lighted and ventilated, heated by steam, lighted by electricity, and furnished with water from good wells and the city water works.

The Study Hall is especially admired by visitors for its large dimensions, excellent light and comfortable desks. The Class and Recitation Rooms are neatly furnished and cheerful.

The Dramatic Hall, with its large stage and tasteful scenery, is one of the finest of its kind. It can seat more than nine hundred persons. Here the College Dramatic Club and Orchestra occasionally give entertainments and concerts, which are highly appreciated by the public for their superior order.

The Recreation Halls, chiefly for cold and rainy days, with their gymnastic apparatus; the Billiard Rooms, with their tables, and the

Reading Room, with its library of choice works and magazines, give the students ample and varied opportunities to spend their free hours pleasantly and usefully.

The large and pleasant Dormitories are kept scrupulously clean. The Bath Rooms, furnished with cold and warm water, give opportunity for regular baths, thus promoting cleanliness and health.

To meet an emergency of fire, standpipes and hose are placed in several parts of the building, while escape is made easy by automatic metallic fire escapes on the inside of the walls and iron ladders on the outside.

Object. The object of the Institution is, in general, to instil into the hearts of its pupils the principles of their holy religion, and to assist them in forming a character which will enable them to pass through life as faithful children of the Church, and as useful and refined members of society. To achieve this no pains are spared, and the means suggested by the best authorities and long experience are faithfully employed.

In particular, the object of the College is:

1. To supply the deficiencies of an imperfect common school education.
2. To prepare young men for mercantile pursuits.
3. To fit students for such professional studies as require, or make advisable, a previous classical or even a philosophical course.

Departments. In view of its threefold object, the College has these Departments:

1. The Preparatory, in which students who are not far enough advanced remain until they are fit for promotion to either the Commercial or Classical Department.
2. The Commercial Department.
3. The Classical and Philosophical Department.

The Preparatory Department is intended to be finished in one year, when students are expected to be sufficiently advanced in the elementary branches for admission to either the Commercial or classical Course.

The Commercial Course requires three years, the Classical six and the Philosophical two, in such a way that the sixth year of the Classical and the first of the Philosophical coincide.

The classes of the Commercial and Classical Courses are combined, except in Latin, Greek, Ancient History and Mathematics. While these branches are taught, the students of the Commercial Course receive lessons in Arithmetic, Book-keeping, Commercial Law, Business Correspondence, Modern History, Orthography, Civil Government, Physics, Phonography and Penmanship.

When a student enters College, he is assigned to the class for which his previous attainments have rendered him fit; and he is required to study *every* branch taught in his class and course.

Winter Course. As many Catholic parents justly hesitate to enter their sons into the so-called business colleges, at the urgent request of esteemed friends, we have established a short but complete Business Course at St. Francis. It is intended for such young men as are desirous to prepare for business, but whose circumstances prevent them from taking the regular Commercial Course of three years. These students live and board at the College, and are subject to the same regulations and entitled to the same privileges as the other pupils. Their course of instruction lasts five months, commencing with the first Wednesday of November and ending with the first Wednesday of April. It embraces Christian Doctrine, English, Arithmetic, Book-keeping, Commercial Law, Penmanship, Phonography and Typewriting.

The terms for five months are the same as in the other Departments. (See page 12.)

Branches. The following branches are taught by the Institution: Catechism, Bible History, English, German, French, Greek, Latin, Hebrew, Rhetoric, Poetry, Literature (English and German), Arithmetic, Mathematics, Geography, History (Profane and Ecclesiastical), Natural History, Physiology, Natural Philosophy, Chemistry, Geology, Astronomy, Mental Philosophy, Hermeneutics, Book-keeping, Phonography, Typewriting, Penmanship, Commercial Law, Civil Government, Instrumental and Vocal Music.

The study of German (for English students), Typewriting and Music is optional, but so that any of these branches being once chosen, remain obligatory throughout the whole course. No additional charges are made for Phonography.

Sessions. The scholastic year is divided into two sessions, commencing respectively with the beginning of September and the first of February. No student will be admitted for less than one session at a time, and no deduction from regular charges will be made if he leaves before the expiration of the term, except in case of protracted sickness or dismissal.

Examinations. There are two class examinations during the year; the first is held in January, the second in June. The result of these examinations will be transmitted to the parents in the detailed testimonial at the end of each session. In addition to this, quarterly bulletins will be issued to the students in November and April.

MUSIC.

No one will question that Music stands pre-eminent as a refining influence, and that its cultivation is a matter of importance, not only for those giving special attention to this art, but even for the community.

For this reason the College affords the best advantages for the study of *Piano, Organ, Violin and Cello*; also the other orchestral instruments may be studied, if so desired.

Each pupil receives *individual* instruction. Two lessons of one-half hour each are taught per week.

Musical entertainments are given from time to time, in the College hall, affording to industrious and sufficiently advanced pupils the opportunity of overcoming their timidity in playing before others, and of acquiring ease and self-possession.

There is also an orchestra at the College, to which all those are admitted who have acquired the necessary proficiency in music.

In addition to this, Harmony and Counterpoint are taught. These studies are for those who wish to fully understand and enjoy the construction and inner meaning of music, vocal and instrumental. They are essential to pupils who would be rapid and comprehensive sight readers, and who aim to excel in the higher grades of music. The text-books used are: "Manuel of Harmony," by P. Piel; "Manuel of Counterpoint," by E. F. Richter. Particular attention is paid to the written exercises and to the analysis of classical composition.

Vocal music is taught, without charge, to all who show any aptitude or inclination thereto. Candidates for the priesthood, however, are obliged to attend the class in which the theory and practice of the "Gregorian Chant" are taught.

GRADUATION.

The Institution, by virtue of its charter, is empowered to confer degrees. Hence, at the end of the Commercial Course, the degree of *Master of Accounts*, at the close of the Classical and Philosophical Course the degrees *A. B.* and *A. M.*, respectively, are conferred on such students as have merited them by exemplary conduct, gentlemanly deportment and proficiency in their studies. The Institution wishes thereby to secure a wholesome emulation and to reward those deserving of the distinction.

INSTRUCTIONS TO PARENTS OR GUARDIANS.

1. As this is a Catholic Institution, in which only Catholic pupils are admitted, the dangers, resulting from the intercourse with non-Catholic associates are precluded. Besides, the Institution is in a position to follow strictly Catholic principles in the education of your children.

2. Boys under 10 years of age are not admitted.

3. The students are always under the vigilant care of their professors and tutors, and form but one family with them. In sickness they are nursed and watched with parental solicitude. Close attention is given to the wardrobe, dormitories and all other departments on which health, comfort and economy depend. A good physician visits the Institution regularly, and medicines are always on hand. In case of real sickness you will be notified in time. The diet is wholesome and plentiful.

4. Every student should be provided with:

Two suits for daily wear and one for Sundays.

Two hats or caps.

One overcoat.

Six shirts or shirtwaists, collars and ties in sufficient number.

Three suits of light and three of heavy underwear.

Two nightgowns.

One dozen pairs of socks or stockings.

One dozen pocket handkerchiefs.

Two pairs of shoes.

Six towels.

Six napkins and ring.

All necessary toilet articles.

5. Applicants must present satisfactory testimonials of their good moral standing, unless they are personally acquainted with some member of the Faculty.

6. **Cigarette fiends will not be admitted.**

7. You may enter students at any time, yet if you wish your children to derive the full benefit from the instruction whilst at College, send them promptly at the *beginning* of the scholastic year.

8. Bulletins or testimonials will be sent to you at the end of each *quarter*, to inform you of the conduct, application and standing in class of your sons.

9. You are requested to inform the PRESIDENT in case you wish your sons to visit home, or to leave the College for good, settle all accounts and forward the necessary traveling expenses.

10. If you wish the Institution to make any advances to your sons for clothing, pocket money or other incidental expenses, except books and stationery, you will please deposit a sufficient amount with the President, as otherwise such advances will not be made.

11. All money sent to the students as pocket money is supposed to be placed under the control of the President, who will use his discretion to make those allowances of real benefit to your children.

12. Since boxes of eatables are a fruitful source of gluttony, sickness and dissatisfaction, they should not be sent to students.

13. Payment for board and tuition must be made invariably in advance, or within thirty days from entrance, at the expiration of which the Treasurer will draw for the amount without further notice, unless special arrangements have been made.
